WELCOME TO LADYBIRD

Dre

Dre was surrendered to Hamilton Animal Services by his owner when they could no longer look after him. When he arrived at HAS, Dre's eye was causing him considerable pain. It was bulging, infected, and beyond repair, so shelter staff sent him to the vet for it to be removed. He spent a little more time at the shelter to heal, and when a foster home opened up, we were happy to get Dre out of the shelter.

First stop was to the vet for neutering and dental surgery. Dre was already missing seven teeth, but three more needed to be removed. The vet also removed a lump on Dre's belly that thankfully was just a cyst.

Dre was very happy to have a loving foster home where he could decompress and heal from all that has happened to him since being surrendered. He's a shy guy, but he warms up and becomes a sweet love bug once he gets to know you. [Learn more...](#)

AVAILABLE FOR ADOPTION

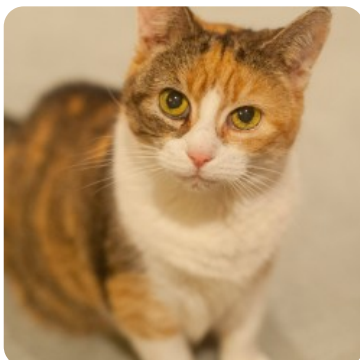

Sweet [Einstein](#) is still looking for his forever home. Could you be the one?

"Oh, hi there! My name is Einstein. I'm widely acknowledged to be one of the greatest and most influential physicists of all time. I developed the theory of relativity, but also made important contributions to the development of the theory of quantum mechanics. These days I live a quiet life, thinking big thoughts in my Ladybird foster home. I'm hoping that someone adopts me and indulges my penchant for science and gives me space to contemplate the universe." [Learn more...](#)

CONGRATULATIONS, HEIDI!

This sweet girl spent a long time rehabilitating in Ladybird foster care. We're thrilled to report that after being with us for almost a full year, Heidi has finally found a loving forever home. Congratulations, Heidi! We're so happy for you.
